Alderman Tollenaer moved and Alderman Austin seconded to approve the proposal as recommended and authorize the City Manager to execute the contract documents.

Discussion followed. Alderman Schipp advised that he had concerns with this project in regards to safety and quality issues. Alderman Schipp added that the concerns are also in regards to Brandt’s capacity to do this work. Alderman Schipp stated that there is a situation with this additional extension of nearly $300,000.00 for what they are calling for, which is an additional safety inspector, 50 hour week, quality control testing and seven weeks of additional
construction observation. Alderman Schipp inquired as to where the City is at with this project in terms of cost and time from the original bid. Alderman Schipp added that details are needed on this issue and this item needs to be tabled.

Public Works Director Randy Tweet advised that he could get a full report on this item. Mr. Tweet stated that currently, everything is still on budget. Mr. Tweet pointed out that they found some additional things as they were digging underground; there were six water mains that were scheduled to be dead-ended, but it made more sense to connect them rather than have a dead-end main where there could be water quality issues. Mr. Tweet commented that these things added engineering costs to the project and several weeks to the project to get the work done. Mr. Tweet pointed out that Brandt submitted a revised schedule and they are currently on schedule; they are meeting all of the dates and it is still on budget.

Alderman Schipp had concerns about all of the changes to the contract.

Mr. Tweet indicated that the project was originally awarded in 2011 for $300,000.00 and it was for design services; a year later, there was a $40,000.00 amendment for some additional services and then a year ago, there was a $600,000.00 project awarded for the construction services throughout the project. Mr. Tweet advised that it was the design first, then the additional design services and then the construction services.

Mr. Tweet and Council further discussed this item as it related to safety and cost concerning the project.

Mr. Dan Carothers of 221 34th Avenue stepped forward. Mr. Carothers voiced concerns in regards to this 6th Avenue Relief Sewer project. Mr. Carothers requested that this item be tabled until critical information could be brought forward. Mr. Carothers had concerns about Symbiont and its affiliates in regards to the additional services, safety issues, cost, and the extended time component for completion of this project. Mr. Carothers also discussed alleged complaints as it related to Brandt Construction and the overall project.

Alderman Foley and Mr. Carothers discussed the various alleged complaints. Alderman Foley stated that he voted against Brandt a year ago when this project came up. Alderman Foley inquired as to whether Mr. Carothers had reported any of these alleged complaints to OSHA or the Department of Labor. Mr. Carothers stated yes and they have levied fines on them.

Alderman Foley inquired as to whether staff has heard from OSHA or the Department of Labor on these alleged complaints concerning this project.

City Attorney Morrison advised that he has not had any communication with either of the proper authorities on any complaints. City Manager Thomas stated that he hasn’t heard of any complaints. Mr. Tweet advised that the Department of Labor has visited and found no violations. Council further discussed this issue.
Alderman Hotle stated that Council wants to make the best decision on what is best for the City and the budget. Council further discussed this issue as it related to various scenarios of what would happen if the project was not approved this evening.

After more discussion, Alderman Foley advised that he would like staff to look into whether or not any fines have been levied by OSHA or the Department of Labor. Council further discussed this issue.

After more discussion, the motion carried by the following Aye and No vote; those voting Aye being; Alderman Austin, Alderman Clark, Alderman Mayberry, Alderman Foley, Alderman Tollenaer and Alderman Hotle; those voting No, Alderman Schipp.

Discussion followed. Alderman Tollenaer stated that this man is investing in the west side of Rock Island; it is a great thing. Alderman Tollenaer added that he will be supporting this item.

Alderman Austin inquired about the value of the rebate of the property taxes.

Community and Economic Development Director Jeff Eder advised that it would be in the $40,000.00 range, but that is a staff estimate when looking at what other similar types of properties are taxed at with this type of investment.

Alderman Austin inquired as to whether there is a precedent for doing this type of property tax rebate for a project like this out of TIF funds. Mr. Eder advised that the City has done other project rebates out of TIF funds, but never with a gas station.

Alderman Foley stated that this is a great project on 11th Street. Alderman Foley added that he was glad to see this revitalization of 11th Street in the 1st Ward. Alderman Foley commented that he would support this project.

After more discussion, the motion carried by the following Aye and No vote; those voting Aye being; Alderman Austin, Alderman Clark, Alderman Mayberry, Alderman Foley, Alderman Tollenaer, Alderman Hotle and Alderman Schipp; those voting No, none.

Alderman Foley moved and Alderman Hotle seconded to approve the increase as recommended and authorize the City Manager to execute the contract documents.
Discussion followed. Alderman Austin inquired as to why the City is making this action and what is the benefit to the City as a result of having the collections manager position.

Finance Director Cynthia Parchert advised that the City went through and identified different types of account receivable agings. Ms. Parchert added that liens have been filed on properties where applicable and now the City is at the point where not all debt is lienable on the property. Ms. Parchert explained that there are some subrogation fees and stormwater fees that the City is unable to collect and TekCollect is going to help the City with these collections. Ms. Parchert added that there are approximately 1000 accounts that are ready to be turned into them.

Council further discussed this item. Alderman Foley stated that at some point in the future, he would like a study session to discuss the collections process and how much has been collected since the hiring of this company.

Discussion followed. Alderman Austin commented that items 23, 24 and 25 cover the same projects and inquired upon Community and Economic Development Director Jeff Eder to explain what each action makes happen.

Mr. Eder advised that this is per the State of Illinois TIF law. Mr. Eder stated that the first action is approving the redevelopment plan and redevelopment project. Mr. Eder pointed out that in the TIF Act, there is a number of criteria that the City has to meet in order to have an area qualify; this is what is being done in the plan and we are stating what kinds of redevelopment the City wants in the area. Mr. Eder stated that the second action is setting the official boundaries of the TIF, and the third action is putting in place the financial mechanism to tell the County how to collect taxes on those parcels.

After discussion, the motion carried by the following Aye and No vote; those voting Aye being; Alderman Austin, Alderman Clark, Alderman Mayberry, Alderman Foley, Alderman Tollenaer, Alderman Hotle and Alderman Schipp; those voting No, none.

Alderman Clark abstained.

Agenda Item #27
Report from General Administration regarding posting signage and prohibiting smoking in parks.

It was moved by Alderman Hotle and seconded by Alderman Foley to approve the posting of signage and prohibit smoking in any public park or recreation area as recommended and refer to the City Attorney for an ordinance.

Alderman Hotle stated that this is the right thing to do. Alderman Hotle added that she supports this item 100%.

Alderman Tollenaer inquired upon Parks and Recreation Director Bill Nelson to comment on the Park Board’s decision and what their thought process was. Alderman Tollenaer then commented that he was not in support of this item.

Mr. Nelson advised that the Park Board gets a number of requests to have signage for different things in the parks. Mr. Nelson added that a lot of times, the requests are for promoting a social issue of some sort. Mr. Nelson stated that the primary concern is that when there are rules in the
parks, we want to make sure that people are obeying them because the rules that are posted are for immediate safety concerns. Mr. Nelson explained that the position that the Park Board had taken was that rather than have this large list of rules, they want to make sure the rules are simple and that these rules are immediate safety concerns so that people see them, read them and pay attention to them. Mr. Nelson pointed out that the Park Board did change the shelter reservation and ask people to be considerate of the people that don’t smoke. Mr. Nelson stated that they want to encourage that issue, but not to the point of passing an ordinance where it becomes an issue and the police have to get involved.

Alderman Austin inquired upon Police Chief Jeff VenHuizen to speak on this item. Police Chief VenHuizen advised that given the nature of calls for service that the officers are responding to on a daily basis, a call for smoking in the park does not warrant a police response. Chief VenHuizen indicated that if the police were directed to respond to these types of calls, it is likely going to result in nothing more than a warning. Police Chief VenHuizen pointed out that it is going to take officers off the street to handle an issue that is so low in priority and not a police issue. The Chief added that he would be opposed to officers enforcing some sort of smoking ordinance or being directed to do so. Council and Police Chief VenHuizen further discussed this issue.

Alderman Austin stated that at this time, he would not be supporting this action. Alderman Austin further discussed this issue.

Alderman Foley stated that he has supported this item and pushed for this. Alderman Foley advised that this is not always enforceable, but if an officer is there and somebody is smoking, then it would be assumed that the officer would give then a ticket or warning. Alderman Foley commented that this is one way to keep Rock Island clean and beautiful. Council further discussed this item.

Alderman Austin inquired upon City Manager Thomas as to what his reasoning was for going forward with this action. City Manager Thomas stated that he sent this to Council last week and there was a consensus from the majority of Council that they were in support of moving forward with the ordinance. City Manager Thomas and Council further discussed this issue.

Council further discussed this item as it related to parks in other communities and enforcement in regards to the signage and the no smoking component.

Alderman Austin inquired as to whether Rock Island is the only city in the Quad City community that does not have a prohibition for smoking in the parks.

Mr. Nelson advised that one community has an ordinance, but does not put up signs and another community has put up signs but doesn’t have an ordinance. Mr. Nelson advised that it is an issue of what Council wants to do.

Council further discussed this issue as it related to tobacco and smoking concerning vapor cigarettes and smokeless tobacco. Council also discussed what other areas would be included in an ordinance for no smoking.
After more discussion, Mayor Pauley stated that if you do it for one, you do it for all. Mayor Pauley added that if you say no smoking in City parks then it also includes golf courses. Council further discussed this issue.

Alderman Schipp advised that this addresses a non-issue and really solves nothing; it is not enforceable. Alderman Schipp added that the amount of feedback that would come back from this decision would be so unnecessarily negative. Alderman Schipp commented that there has been too much time debating this issue and the City has serious issues that deserve much more consideration and attention than this issue. Alderman Schipp further discussed this issue.

After more Council discussion, and by the raising of hands, the motion failed with three (3) Aldermen voting Aye and four (4) Alderman voting No.

Agenda Item #28

Alderman Schipp added that the Operating Engineers Local 150 is an organization that has been around since the late 19th century and has been in the business of construction for many years. Alderman Schipp added that he was satisfied from what he heard from the Public Works Director.
