Police Chief Scott Harris advised that he didn’t believe it was ever considered.

Public Works Director Bob Hawes stated that people are not allowed to sit in the street due to emergency access. Mr. Hawes explained that if the street is filled with people sitting in lawn chairs, then Fire, ambulance and Police would have a lot of trouble getting to where they need to be.

Discussion followed. Alderman Conroy inquired as to where these regulations came from or are they part of the national code.

Public Works Director Bob Hawes stated that this is a zoning ordinance, not building codes. Mr. Hawes indicated that the regulations were developed by a team from the Illinois side of the river. Mr. Hawes commented that people would still need a building permit, but would not have to obtain a special use permit or variance.

Alderman Austin advised that in the report, differences were cited as it related to Moline, Milan, Rock Island County and Rock Island. Alderman Austin inquired as to why there are differences.

Mr. Hawes explained that he believed it was a legislative decision on how the city councils wanted to look at it. Mr. Hawes added that the technical specs are essentially the same everywhere. Mr. Hawes advised that the City of Moline decided that they didn’t want the wind energy systems in residential areas at all. It was noted that Milan requires a special use permit for wherever they are placed and Rock Island County is doing the same thing. Mr. Hawes stated that the reason the City is not recommending a special use permit is due to Council not having to deal with everyone on an individual basis.

Alderman Conroy advised that he did not have enough information at this time to vote on this item. Alderman Conroy inquired as to whether the other cities are adopting what is proposed for the City of Rock Island.
Mr. Hawes responded that the other cities have adopted the technical part of it. Mr. Hawes further stated that the Planning Commission held a public hearing on this item and voted eleven to zero to recommend approval of the amendments to the zoning ordinance.

Alderman Conroy advised that he would like to see these wind energy systems under a special use permit. Alderman Conroy further discussed this issue. Alderman Conroy inquired as to whether staff is asking for the technical part of it to be approved or the technical part plus not needing a variance. Mr. Hawes stated that it would be the whole package.

Alderman Conroy advised that he would like visuals on these wind energy systems and what options people may have so that a decision could be made.

After more discussion, Alderwoman Murphy removed her motion. Alderwoman Murphy stated that more information is needed on this item.

After further discussion, this item was then pulled from the Agenda to come back at a later date.
