

March 26th, 2021

Dear Electrical Contractor:

Your 2020-2021 contractor registration will expire on April 30, 2021. In order to obtain a permit after April 30<sup>th</sup>, your registration must be current. The form for renewal can be found on our website at [rigov.org](http://rigov.org). You may submit your registration and payment via mail or in the office after April 30<sup>th</sup>. **Current Electrical Licenses must be submitted with the registration form, current reciprocating license and a \$27.50 registration fee.**

**Please keep the following other contractor responsibilities in mind when performing work in Rock Island:**

- City code requires that permits must be pulled *before* work is performed and that permit must be retained on the job site. This office understands that emergency repairs/replacements do occur, and those permits must be submitted as soon as possible.
- City code requires that inspections are conducted during applicable stages in the build and that a final inspection or occupancy inspection is conducted in order to close the permit. **Every permit issued requires an inspection.** It is the responsibility of **the contractor** to call all inspection requests to the Inspection Division upon completion of work in a timely manner. **There is a mandatory 24 hour notice for all inspection requests.**
- If there is a change in the scope of work, the proposed change must be submitted to this office in writing and it must be approved by the Building Official before modifications are initiated.

### **LOW VOLTAGE WIRING**

#### **All low voltage wiring requires a permit and inspections are required.**

The City of Rock Island currently uses the 2015 International Codes (Building, Residential, Fire, Mechanical, Fuel Gas, and Existing), 2017 NEC, the 2004 Illinois Plumbing Code, and the IPC for matters not covered by the IL Plumbing Code. **The 2018 IECC is state mandated, and all construction must conform to the minimum requirements.** You may find copies of local amendments on our website at [www.rigov.org](http://www.rigov.org).

On November 20<sup>th</sup>, 2017, City Council passed a recommended ordinance to implement the 2015 International Codes (IBC, IRC, IFB, IMC, IFGC, and IEBC), 2017 NEC, 2015 IECC, the 2014 Illinois Plumbing Code and the IPC for matters not covered by the IL Plumbing Code. **All construction after December 31<sup>st</sup>, 2017 must conform to the minimum requirements of the 2015 I-Codes.**

There are copies of the local amendments as well as permit applications and fee schedules available on the city website: <http://www.rigov.org>. **Please visit our website to download the latest electrical permit application. All information must be completed as required.**

I look forward to working with you throughout the year.

Sincerely,

Tim DeLathower  
Interim Chief Building Official
