Dear Contractor:

Your 2025 contractor registration will expire on December 31<sup>st</sup>, 2025. In order to obtain a permit in 2026, your registration must be current. Please make sure an updated certificate of liability insurance is provided with your registration as well as a **current** copy of your mechanical license.

Proof of workers compensation insurance or proof that you are an approved self-insurer of workers compensation must also be provided with your registration. If you will not have employees performing work during the 2026 registration period, then a written statement confirming this shall be submitted in place of workers compensation insurance.

There are copies of the local amendments as well as permit applications and fee schedules available on the city website: <http://www.rigov.org>

**Keep the following responsibilities in mind when performing work in Rock Island:**

- City code requires that permits must be pulled **before** work is performed and that a permit must be retained on the job site.
- It is the contractors' responsibility to keep their insurance and bond current. If insurance and bond information is not current, your registration will not be processed.
- **Every permit issued requires an inspection.** City code requires that inspections are conducted during applicable stages in the build and that a final inspection or occupancy inspection is conducted in order to close the permit.
- Proposed changes must be submitted and approved by the Building Official before modifications are initiated.
- **ALL INSPECTIONS REQUIRE A MINIMUM OF 24-HOUR NOTICE**

Please contact the Inspection Division for any further questions!

Thank you
